

This makes a fairly small sized hat which means you can also use it for table decorations, add holes to the sides for the hat and add colored string or fill with popcorn or other goodies for a great New Year look.

When folded, there's a little gap at the top to add tinsel, ribbon or other decorations.

Print on regular paper or sturdier card depending on your need, cut out, form into a cone and just a touch of tape or glue to hold it together.
